

Thank you Father  
The doctors in SF  
were ready to operate  
on my so-called "injured"  
knee cap 2 days after I left  
Since I've been here in this  
beautiful land it gets better  
every day now and the "limp"  
is almost gone. Dr. Schact says  
it is just a little arthritis.

Loretta Coomer  
(night-time  
supervisor of all  
13 babies)
