

TUES?  
JAN?

Dad:

I really screwed up today. I lost my temper with Lula Ruggen, a senior, was swearing - not at her in the sense of name calling, - but nevertheless talking loudly and unkindly to her. Such conduct on the part of a State supervisor is not excusable. Several others had it, and I am sure it went all through Dora St. Mrs. Ransan went away saying this was just like the U.S.A.... I apologize to her about this.

I am bringing myself up for this because it will have to be made public to keep their.... whether or not anyone can bring it to your attention.

By way of explanation, but not excuse, the flu bug has got to my stomach so I haven't been eating much for the last day and a half, my blood sugar was off and it just lost my self control.

I feel very guilty about the whole episode and would like to work Sunday afternoons for 4 weeks.
