

11 Oct - M

Had ^{only} a short eff. acct to do for
Mansfield & a box of cty for Maggie
on Hwy Co; nevertheless I didn't even
finish ^{entry} Sui-gial. - Mary & Dor were
doing some typing for one of the new
atlys - his ~~transcribing~~ ^{transcribing} was hard to
decipher & his grammar questionable

I left about 9:00 for an apt ment
w/ Dr Schupp for my re. gynecologi-
cal exam - as Lor had told me,
he has closed his Stonestown off -
he had no problems - I asked him
about the advisability of my con-
tinuing to take premcum, in view
of the ⁵ ~~pts~~ in the papers warning of
its ⁵ ~~spad~~ ^{spad} carcinogenic properties -
he ⁵ ~~thot~~ ^{thot} the ⁵ ~~risk~~ ^{risk} was out weighed
by the benefits

Took lunch on the Pkwy & step -
The day was quite warm
Went directly to the tea as I

(over) C-1-A-5 (32)

wanted to eat early & get home to
the one my girl - many of the
sisters were holding soap for del -
had some started about 6:00 -
had gone upstairs & gave you a crown
info about a pos get offer for one of
our girls as a new hat to be made up.
I had to wait for some bread to bake

The meal was too heavy w/ starch,
since there was a big helping of rice
w/ beans - I find it unpalatable

Many of the young people try to eat
naps

I gave to Dale Barto to give to
Joyce a note about what vitamins
will be authorized for me, as I
learned only Vit. C is supplied to
command members w/ a ration
from J. then

When I get home, I typed up my
girl for the her wife to be to wash
dishes

I had naps & ate a salmon
sandwich

Went to bed at 1:00
