about each other & reassured that we are
all well - even tabs is in a better con-
dition than we had expected, tho we
wish she didn't smoke or drink so
much - Edna sd they were pleased that
I was happy, had friends & are now
convinced that my retirement is taken
care of - she asked if I thought they
were selfish - I told her the whole
country was living at a level which was
beyond its deserts

My own conclusions are that altho
not racist & altho they back many
progressive ideas & movements, they
refuse to accept the seriousness of the
sit - all have faith that reformist
solutions can & prob will be found to
our national probs. - they are bound by
ties to loved ones & prob they own - Dor
is so adamantly anti - relig that she
cannot accept any phenomena which she
regards as superstructural - she lacks
sympathy w/ all living things & to a
certain extent w/ people - I did make
some headway w/ all of them in leading
them to view extra - sensory occurrences
as real

We arrived at the airport at 1:30 - Edna
did not come in

21 Aug - 5 - 2

The plane, on Continental flight to SF by way of Colo Springs & Albuquerque, left at 2:35. I had a window seat - at Albuquerque I got off the plane & walked around the airport - I was pleased w/ the tiles of Indian design in the passenger way & interested in the Machine dolls - On the flight we had good views of the Grand Canyon, Boulder Dam, Las Vegas, Death Valley & the Sierras

I read Radicalism in America, etc my grapes & nuts - soft drinks & nuts were served twice

We arrived at 6:14 SF time - I took the limousine in to the city, walked up to Henry to get the bus I'd wanted nearly and he - when it finally came, the driver told me that there had been two mishaps at the East Bay Terminal - the brakes of one bus went out & a woman slipped & hurt her hand & an ambulance had to be called

I transferred to the McCormick bus, was home by 8:00

I made some spaghetti w/ canned tomatoes & ate it

I unpacked

Went to bed at 10:30
