ask ~~Dennis~~ Dennis

Put me with somebody who knows these people and we could get them. We could blow them up, we could kill them. I have died too many ~~times~~ times and I don't mind dying. Gabriel was dying in my arms when I came into the church, and you healed him. You can burn them, blow them up. After you kill them they can be buried and nobody will ever know what happen to them. You can choke and strangle them, make them look like they had heart attacks. It has to be people you can trust. We might not ~~get~~ get all of them, but one or two.

Make it look just like
we're having a party,
and then when the news
people and them come up,
have somebody there at
the "party" to whip
their asses good.
