In the 16 years of this life, I've learned that the only reason to live or die is Communism. I pledge myself to you AND Communism until I die.

I AM VERY SORRY for what happened to Chris, but in my heart I only makes me that much more ready to die, Killing our Enemy - Capitalism. I feel so much hate towards those that have started the Conspiracy against us. In my heart I am will to do Anything to repay those who are responsible. Even if it means going back to the fascist U.S.

I AM willing to do Anything that if feasible I'd like to get into Explosives. If possible could get information be gotten from the U.S., So some one could START

I feel the time to show  
At those that have left, that we  
ARE Not going to run with our tails  
between our legs. But are going to turn  
with our Teeth bared and claws ready
