

5 Oct - T

Because of the impingement of  
Miami buses, I spend as much time  
waiting to it as before  
\* The three of us in two of spent  
the greater pt of the day on the  
Manfield Sugar Cement contract - I  
typed a portion on the car for A.T.S.  
we ordered an app. - print - and -  
The Manfield & Greenfield had wanted  
it by noon, by the time we ran off  
on the ferry, it was 4:00 P.M.

I had some time to do a few  
entries

Had telephoned B.W. & E. & Joe Teleph &  
had serv. disconnected - paid in a change  
of order to the p.o.

The news films were "The United  
Way is People" which showed inter-  
views of recipients of aid & people on  
the str. expressing their views + "The  
Sacrifice of the Self" about the loss of  
three fishermen - I ate my meals  
in the assembly room

The temp these days has been very  
warm

I had seen Vika Sorokhina when  
I left the city in the morning - she  
has been waiting for a ride to the  
Tc w/ Bob Houston, who didn't come -  
I told her to drop in & see her eye  
wh - she shows an eye w/ Rocky  
Breidenbach<sup>s</sup> - The eye was filled w/  
kumch - kumach, almost all of which  
are Rocky's & Vika says she keeps  
bringing in more, incl. plants - she  
had photo of her family displayed -  
I asked V. how she got money to buy  
so much, as communal members are  
not paid to have priv. funds etc.  
an E & a mo. - V. didn't know - in  
addition to the disorder in which  
she lives, Vika is handicapped by  
lack of transport. - The person who  
usually gives her a ride is on the  
Tc trip - she has been going for  
treatment to Legume House & she had  
no way to get to the Tc to eat so  
was making her some pancakes -  
Rocky had borrowed a Tc car but
