

12 Oct - 7

Dor gave both Mary & me a
pro forma contract from Pete
w/ annotated sections which by an
"edit" command can be excluded
from the print - out - Mary had
done some of this annotation
previously, but it was my first
effort w/ it - Dor is quite fond
of the proced. which she says
she adopted for the dept's needs
from the basic instrns - The 2
docs needed revisions which
involved set dif types of annotated
entries, as well as the usual
type of revisions - I whid on this
doc 5 hrs by - aft lunch - I
then had about an hr w/ on a
revision of a ^{short} Helbreth doc.

Had very little time to check on good
entries - did yesterday's entry.

At luncheon I went to see a film
in the energy series, called "The Road

(over)

C-1-A-5 (34)

"To Energy" w/ Bob Hope - it was
a Teflex film which showed
various aspects of the oil industry, the
main effort being directed to telling
the viewer how expensive it is to
search for oil & that environmental
considerations are always in the
co's mind - ate my lunch in the
assembly room

I intended to go home for a few
mins by going on to the Te Con, but
it was well that I didn't - the
family had arrived from the trip
in the morn. - large mss were
in the dining room & food serv.
started about 5:45 - the meal was
very good

It seemed that papers listing
our pers needs were to be
turned in later but I didn't want
to wait

I did one my goal, finishing typing
of the 16-31 Oct 75th sect, proofed
it

Red mss
Went to bed at 12⁰⁰
