Revelations were dramatic.
The mtg ended about 4³⁰-
We had dinner downstairs
We left LA at 6⁰⁰

Inc. Redirection in Amer

About an hr or so out of LA the
buses came to a halt & we heard over
the inter-com concerning an accident -
that had occurred - police were men-
tioned & Jo's voice came over, asking
someone if he was hurt - we learned
that someone had thrown a thing into
the windshield of the lead (Jim's) bus

The police had come; the buses went
on their way after reporting the incident -
some had been slightly injured by
shattered glass but I had hospitalization
was not nec.

I stop

When we had a short stop at Butler
Willow, everyone was allowed to get off
the bus - The missile thrown had not
made a hole & was apparently not a
bullet but had hit the glass w/ terrific
impact - I saw Mike Prokes, the driver,
& Karen Layton, who had been cut w/
glass, get it in their eyes & swallowed

some, & had been cut & covered w/ blood -
all wounds had healed & only some
effort as Mike's eyes was viable - Mike
had been miraculously able to park the
bus safely at the side by the rest (I told
us later that his son Steve had also
been struck by the glass but was also all
right) - I had been standing in Mike
but had moved a few minutes before

I had Viki's notes as a second partner -
again - she told me all about a good
who plays in the movies & whom she
saw in L.A. - however, she stopped
talking after a while & I had a comfortable
night

I ran at the last red stop

We arrived at SF about 4:00

I went home on the bus w/ Dorothy
Brewer

I lay down until 6:00
