

19 Oct - T

I spent all day on another litigation
pt, making revisions - Butters' of some
to be trying to finish these in time
for the annual seminar of the dept which
starts Th

Bar is still tense & Mary still better -
M. says she is waiting until she can
take prob to & lb for another job
comes on the job &

I ate lunch in the off as the
weather is cool

When I got home I exercised for
15 mins - this is the first day I have
done my daily exercises since moving,
esp for running at the red steps on
the LA trip, altho I had a good deal
of phys work while moving & unpacking
I changed my clothes

Went to the Te. in the h... - I knew
that the members who weren't coming
had gone to the home rally for Monday
at noon - I had the impression
there would be a comm. mtg -
I was late for dinner & they were out of

(over) C-1-A-5 (61)

everything but macaroni w/ frankfurters & fresh peas but there were good
I heard there was to be a comm-
munal meeting at 8³⁰, the hour just
chosen because the young people were
permeating

I went to the audit, where in the
back the "needs" procedure was taken
care of - the individ. fills out forms
& submits it to his or her counselor
listing the items desired w/ estimated
cost - on W night the money will be
provided - receipts must be ret'd - a
separate form is filled out for food
items, which are furnished from
kitchen supplies - Vernell Henderson
is my counselor & she showed me
how to make out the forms

I had had a call from Renee's Roy
in Dr. John Schupp's office asking
whether I would be able to send anyone
to her from the TC for a part-time
job as a Medical Technician, as had
mentioned the possibility. - I had turned
in the request to Jean Brown when I
first read it & I spoke to Vernell

1968 - 7 - 2

about it & she suggested I tell
Thelma Jackson, who is just finishing
a Real Tech course

Christine Bates told me she was
to be my new roommate - It had
shown her the apt this apt - Christine
is a senior who has been in rather
poor health - she is a quite a bit
hot-tempered person but I had - Christine
used to be in the vitamin stand -
she may be hard to get along with -
Big Johnson is her early dog in the
shared an apt w/ her & they had some
stormy incidents

The Communal meeting on 2 & 3³⁰,
see program preceding

arrangements were made
I came in at 8⁴⁵ - he gave some
of papers to the child, who passed it
to the aunt

See spoke on the subject of all for
seeing that food was not wasted - he
said people were worried who by hiding out
in the communes, even mission meals -
all had to be on hand at 8⁴⁵

19 Oct - T - 3

I see the bombing of the Cuban plane
has united the stps located in the region -
a plot to kill Castro was uncovered -
Cuba denounced the Treaty under which
it had agreed to send planes hijacked
back as the US had not kept its word to
stop terrorist attacks - the U.S. had threaten-
ed Paris & was told, "Don't threaten us" -
144 m. we die in the first strike of a
thermonuclear war

I mentioned equipment we need in the
p.l. - we will buy another freighter - we
are moving from a big to a small air-
plane - a freighter can move 200 people
|| we need a mobile machine & restaurant
equipment ||

I estimated 500 people will go to the p.l. -
we have 300 communal people

We need at least 10 Toyota station wagons -
we need to raise \$550,000 - when we
have it will sell the ch & apt. flings

A school for our children has been set up
by Tom Grubbs - it is better than the
Govt schools which are better than Amer.
schools - in the p.l. they told us to send
four of our world public child esp. paper -

vision & they will straighten the child
out

I had wh'd on a budget for the p.l. -
\$44 was planned for food per person,
\$100 for clothing - we need \$360, over
a yr for 500 people - this doesn't
cover equipm - we ought to do every thing
in our power to get what we need

New people who had joined us on the
trip were asked to say a few words

A young woman, Bertha x , 16,
was brot on the floor - she th' off
w/o permission - she sd she had never
seen anything loving from father - she
has been involved in questionable actv's -
she want to go to her grandmother - her
mother thought this arrangem wd be hard
on her grandmother - the mother is not
communal - the girl has been up many
times bef - the mother sd the girl
had bruises, sd she had been beaten
by the counselors - questioned, Bertha
admitted she had hit her own arm &
that she cd always manipulate her
mother - J. recalled that she sd she
had always hated her mother - J sd: the
next pers who criticizes me tak my

19 Oct - T-4

back can push - Bertha was asked whether she wanted to stay - she replied she doesn't want to be communal, chose to go - J. is therefore sending her to her grandmother

Linda Hettle sd she had been w/ Bertha, must have met her - J. sd; arrange for the earliest bus to Vicksburg, Miss

Jimmy Hald⁵ was put on the floor - J had a gift that he & Von Smith had engaged in sex acts - he is very effeminate - he doesn't do any work - he talked of having a sex change op - he put Kotex on his needs list - the station burst much laughter - "He spoke insultingly to men"

J sd to bring people into the center w/ confused self. identity is a cruel hoax, but "I won't tolerate his saying 'this my sex' to my seniors" - J showed sympathy but wants an example of wh from him - 5 people were apt to supervise his wh turn

The mtg ended at 12⁰⁰ aft a song & a few readings performed by J

I spoke to Dean Jackson about the
New Tech job opening w/ Mr. Schupp
& sent a note to Thelma by him, asking
her to call me at the office

Al told me she was going to move
Chr. Bates in w/me - ~~she had shown~~
~~her the apt today~~ - Bates has been staying
at night at the laundry where she
works

Rode home in the new w/ Buck
Had supper & ate some toast & jam &
toast & peanut butter
Went to bed at 2 AM
