

12 Aug - Th

Didn't get up until 6³⁰ - had only an orange for breakfast - but a doughnut which I ate at the office

Don had a whole until 7³⁰ last night on the Consumers Inst. litig - she transmitted notes to + from time before wedding & had Marie for see her on the other machine, as Mary & I are not expert enough to do this type of work

I mentioned separately to + about the idea of having a study on my reaction, an exp. conf. for that. Some of us can still calmly what we liked & what we didn't like - Don had a strong negative reaction, still taking an attitude of firmness = "she's got to learn to adjust to the bus world" - she revealed that she thought my infl. in the relationship had been detrimental & she was looking forward to dealing with things alone & "getting her straightened out" with I am not reacting & she is showing

I could work on a resolution - Marie & type her name - the same version of the same thing

them for lunch but they were delayed
on BART so she didn't get any
lunch

to the bank - deposited 2 checks as
I was paid for my vacation with in
adv. & got cash

the past few days

in addition to underwear, I washed
all my dresses, blouses, & skirts
