Steps until 6:30 - didn't have any  
info. - no exchange at work  
Neither Ben nor I went out today -  
a day - are being limited in  
movement in the morning, due to some  
issues due to the ATC

We had discussions on the  
afternoon, such as the limits of  
limits, the state of the job -  
main state (my opinion) & the  
state of the job, the  
the job & the office - which  
was very to improve relations, which  
became in what heated

I ate lunch in the state -  
the job was quite hot

I intended to <sup>do some chores,</sup> work my hair, but  
Bonnie Beck called - she wanted  
to come over & talk to me about  
doing an article for the Tea map

She arrived about 7<sup>30</sup> & stayed a  
couple of hrs - she is a <sup>public</sup> <sup>school</sup> teacher -  
I saw her job, altho I had - could -  
whatever her interest was - Bonnie's  
affected looks from the job, not 4/4 -  
Bonnie lives w/ Dr. [unclear] near  
where Liz Forman used to live -  
Bob Davis is working on the [unclear]  
structure in L.A.

X Bonnie was indignant w/ [unclear]  
only gave me more info on the

her for persuading Harry to live when  
he seemed to be accepting well to  
the 12 - Harry is w/ Liz, Bonnie, etc -  
it was unforgivable that she just  
"dumped" Denise instead of placing her  
w/ someone else - Liz spent much  
time on her make-up - when I  
inquired what had led to Liz's leaving  
the 12 now, Bonnie thought it was  
the prospect of getting money from her  
grandfather - I had always known  
what she was like - she was mentally  
unstable & he gave her every chance  
"I'd had works also at juvenile Hall"

Bonnie told me Linda Dennis's daughter  
is now in New Hall - she used cig-  
arettes, drugs & alcohol & has been on  
"the pill" since she was 11 1/2 - she  
is 14 now

I mentioned my 13s to Bonnie &  
she suggested I let her keep them -  
I'm moving everything down from  
RV

Bonnie left at 11:45

|| ✓ Bonnie had no particular item in  
mind for me to write for the mag -  
I still had a very idea of writing  
something concerning the high ability  
of dark people & how it has usually  
been taken over by lighter non-  
people who then endeavor or after-  
ominate the dark races - we are not  
sure this theme wd be suitable for  
the mag but she that I shd give  
the matter to J. to use w/ the congress  
& to Lois Pans, who is in charge of a  
group of very high level children.

I also suggested for the mag a question-  
naire on the Bible which wd give  
the contradictory answers and I  
uses to show its unreliability - I  
rd to her Lois list of quotations  
on relig bel & atheism ||
